PREDICTIONS
2022

61% of employees want a hybrid work environment.

70% of organizations will expand anywhere work significantly.

30% will fail to make it work.

Automation-first
workforce strategies will
emerge.

80% of jobs will be
affected by automation
by the end of this decade.

80% of consumers will see the world as all digital, with no divide.

Cutting-edge tech execs
will leap from digital to
human-centered tech
transformation.

The metaverse will be
the 3D experience layer
of the internet.

But it doesn't – and
won't – exist in 2022.

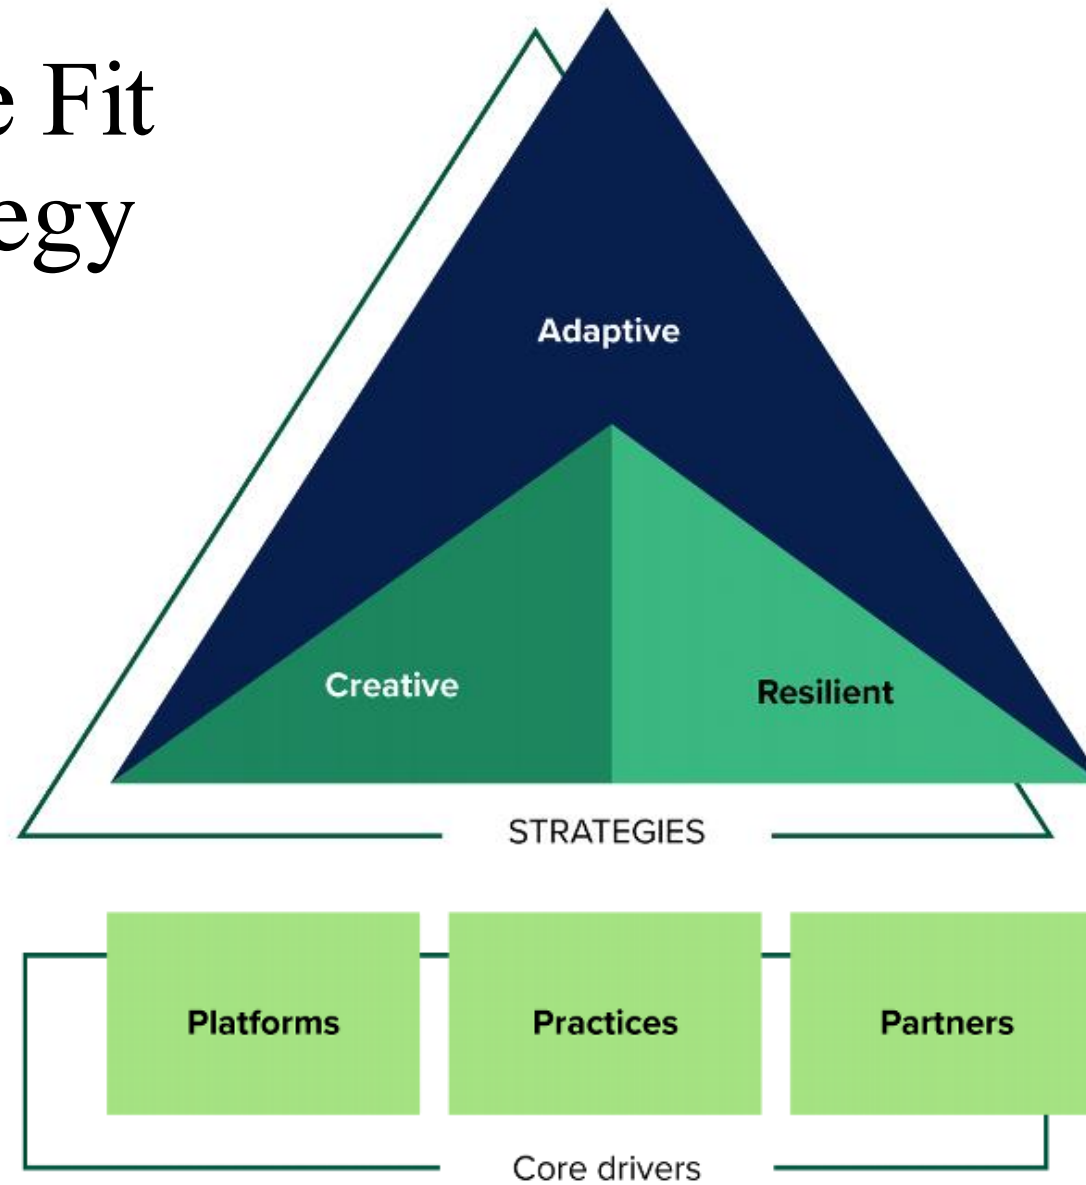

Rapid acceleration of technology will worsen tech debt for 60% of firms.

This Is The Year For Tech Leaders To Be **BOLD**.
