

Amy Phillips is an Information Technology Executive with over 30 years of global experience and a passion for building high performance teams and organizations. She brings a wealth of expertise in aligning technology to business strategies and creating collaborative, effective organizations.

As part of Symphonic Leadership Partners, Amy shares her leadership and digital transformation knowledge. Prior to working for Symphonic, Amy worked for Corning Incorporated. Her key roles included: Division CIO for Optical Communications, IT Director Global Application Services, and Director of IT Strategy, Architecture, and Performance Excellence. Her teams spanned North America, Latin America, Europe, and Asia with a focus on mentoring and developing leaders to build the future organization.

On the NC Tech Board of Directors for 6 years, she supported NC Technology Companies and the creation of the State of Technology Industry Report (STIR). She is co-chair for the Society of Information Management (SIM) Women in Charlotte, working to provide a forum for Women in Technology Leaders to find support, growth, recognition, and inspiration. Amy is also president of the Lake Norman IT Professional Career Dugout; a group to support Charlotte IT professionals in job transition.

Amy has a Bachelor's degree in computer science from the State University of New York at Buffalo and has certificates of expertise from MIT Sloan School of Management for Digital Business Strategy and Cornell University for Executive Women in Leadership.
